

APPLICATIO has again been contacted by two GIZ Programmes to assist in the development and setup of impact-oriented monitoring systems. APPLICATIO supports the programme by moderating planning meetings, drafting systems and tools and setting up the system based on GIZ-instruments. The contract also includes the setup of a web-based monitoring system based on GIZ-Monitor

APPLICATIO's responsibilities include:

- Making familiar with the programmes
- Facilitation of planning meetings
- Drafting of systems and tools
- Discussion of drafts
- Joint finalisation
